

Sunday 8th March

Arne+Leonard

Today we went with our host family to Hastings. It was really exciting because we ate our first fish and chips and went to the sea. We both enjoyed the taste of fish and chips. After that new experience we went to the sea to see the waves or to find some seashells. The sea looked really beautiful. The dog of our hosts called Sammy also really enjoyed it because he could run around there. We also found some big seashells which looked really interesting. Finally we went to an arcade-playroom. There we lost some of our money but it was still funny. Before we got to the train, we went again to the sea because Sammy really wanted to. We almost missed our train but in the end everybody was happy to chill at home again.
