

SUNDAY THE 9TH

Today, on day 3 we were shopping with Prof. Kerschdorfer and Prof. Prantner at the pier in Eastbourne. Our meeting point was at the Rattons school, we started in the early morning. When we were full we walked towards the beach, we arrived there after about 40 minutes, meanwhile we saw some nice parts of Eastbourne. At the beach we played some funny games, afterwards the teacher told us that a rally is imminent. The rally was about finding different places on the pier and then taking a selfie with us there. It was great fun and we have even won! But then the weather got very bad and we had to go to an Arcade center. It was even more fun because everyone lost his money at gambling. When the weather got better we went into town to a shopping center. Rudi, Oskar, Paul, Lorenz and I went to dominos, a delicious pizza shop. We stayed in the center for about 1 hour, then we went home by bus. A nice day!
